Objectives: The objective of this course is to explore modern methods of communicating science to a variety of audiences who are not necessarily science specialists.

Course grade:

Course Assignments (including writing) (90%); course attendance, participation & presentations (10%). Note that attendance and class participation is important. There is no final exam nor mid-term.

Course Outline

We will start by discussing circumstances and audiences for which the “Op-Ed” piece in a newspaper may be effective. We will move on to discuss communication by PowerPoint talk, posters, “post Al Gore” documentaries, and then by social media, such as [Youtube](#). We will discuss marketing and rebranding in science. We will conclude with discussion of communicating with potential philanthropic donors and then elected representatives in Government.

Important dates in this Course

Week 1: please read the sample Op-Ed pieces on the course website.

Week 3: noon January 21, 2015, first writing assignment, due (no late assignments accepted)

More important dates to be announced
