

SIO 50: Introduction to Earth and Environmental Science

MWF 2:00 PM – 2:50 PM

York 4080A

(Lab room: York 3030)

Instructor

Geoffrey Cook

Office: 303 Vaughan Hall (SIO); 366 Galbraith Hall (Main Campus)

Phone: 534-3406

Office Hours: Monday and Wednesday 1-2 PM in Galbraith 366; and by appointment

Email: gwcook@ucsd.edu

Hello! We are thrilled to be introducing you to the exciting world of Earth Science! Regardless of your background, we believe you will find the class both interesting and informative. Throughout the quarter, we ask that you remember that we are here to help you further your education, so please do not be inhibited to visit me during office hours, seek help/guidance, or to discuss any concerns or issues you may have. We always encourage questions and discussion in both lecture and lab. Furthermore, we are always happy to re-address or clarify concepts. We want this to be a positive and useful learning experience for each and every one of you!

Class Organization:

This class is broken into two main components: a lecture that will make up 60% of the grade, and a laboratory section that will make up 40% of your grade. The lecture portion of class will consist of a 100-point midterm exam and a 125-point final exam that is cumulative. In addition, there will be several homework or in-class assignments that will total 75 points. Consequently, your lecture grade is based on a total of 300 points. The laboratory will consist of in-class exercises, one quiz that will count as a lab exercise, and a field exercise.

The lecture text for the class is *Earth, Portrait of a Planet, 4th edition* by Marshak. The lab text is *Laboratory Manual for Introductory Geology, 2nd Ed* by Ludman and Marshak. The lecture and lab textbooks are required. You are responsible for reading the chapters assigned, and the exams will include material covered in the text. Please note, however, that there will be information covered in class that is not covered in the book. Consequently, regular attendance in lecture, coupled with effective note-taking is perhaps the best way to succeed in this class.

Field trips:

There is one required day field trip on Saturday May 9th (8 AM-4PM) to explore the stunning regional geology of Southern California. Details will be given in class. Exercises completed during these excursions will count towards your laboratory grade, so please mark your calendars accordingly.

Absences and Missed Work:

There are typically no make-up examinations. In the case of legitimate conflicts, notification is required at least one week before the regularly scheduled examination. In the case of deaths, accidents, or sickness, notification is appreciated as soon as possible and is required within one week of the regularly scheduled examination time. *All excuses must be in writing.*

Classroom Conduct:

Disruptions during lecture or lab will not be tolerated. Disruptive behavior including talking, excessive noise, poor behavior towards other students or instructors/TAs, arriving late/leaving early, reading newspapers in class, inappropriate language/comments in lecture/lab or on-line, or ringing cell phones will result in your being asked to leave the class. It is to your benefit to arrive on time because most announcements and assignments occur at the beginning of lecture/lab.

Academic Integrity- Students' Responsibilities:

Students are expected to complete the course in compliance with the instructor's standards. No student shall engage in any activity that involves attempting to receive a grade by means other than honest effort. University policies, regulations, and standards of conduct can be found on the Academic integrity office website at http://www.ucsd.edu/current-students/_organizations/academic-integrity-office/.

SIO 50 Schedule- Spring 2015

General Note: This syllabus is an outline of proposed events. It is subject to change; however, never without notification, and never to advance the due dates of assignments.

<u>Date</u>	<u>Lecture Topic</u>	<u>(Ch. in <i>Earth</i>)</u>	<u>Lab Subject</u>
3-30	Welcome and introduction to geology		NO M/TU labs
4-1	Tectonics	Ch. 3/4	
4-3	Tectonics	Ch. 3/4	Introduction
4-6	NO CLASS (Labs will still meet)		Tectonics I
4-8	Tectonics	Ch. 5	
4-10	Minerals	Ch. 6	Tectonics II
4-13	Igneous rocks	Ch. 6	Minerals I
4-15	Igneous rocks	Ch. 6	
4-17	Weathering & erosion/sedimentary rocks	Ch. 7	Minerals II
4-20	Sedimentary rocks and soils	Ch. 7	Igneous Rocks
4-22	Metamorphic rocks	Ch. 8	
4-24	Metamorphic rocks	Ch. 8	Sedimentary Rocks
4-27	Volcanism	Ch. 9	Beach Walk (At SIO)
4-29	Volcanism/review for exam	Ch. 9	
5-1	Glaciers and climate change	Ch. 22	Metamorphic Rocks
5-4	MIDTERM EXAM		Maps
5-6	Geologic structures	Ch. 11	
5-8	Geologic structures	Ch. 11	Climate Change/Stock and flow

Saturday May 9th – Day field trip to Salton Sea

5-11	Earthquakes and tsunamis	Ch. 10	REVIEW for lab quiz
5-13	Geologic time	Ch. 12/13	
5-15	Geologic time	Ch. 12/13	LAB QUIZ (rocks and minerals)
5-18	Mass wasting & landscape evolution	Ch. 16	Geologic Structures
5-20	Water and hydrologic processes	Int. F	
5-22	Streams and floods	Ch. 17	Geologic Time

<u>Date</u>	<u>Lecture Topic</u>	<u>(Ch. in <i>Earth</i>)</u>	<u>Lab (Ch. in Ludman)</u>
5-25	MEMORIAL DAY (NO CLASS)		NO M/Tu LAB
5-27	Streams and floods	Ch. 17	
5-29	Groundwater	Ch. 19	Volcanoes
6-1	Energy and natural resources	Ch. 14/15	Water and geomorphology
6-3	Energy and natural resources	Ch. 14/15	
6-5	Sustainability and the Earth system		TBA

Final Exam: Friday, June 12th 3-6 pm in York 4080A
