| Oct. 11| Marine population genetics: applications for ecology and fisheries management | Dr. Ron Burton  
Professor  
Marine Biology Research Division                                                                 |
| Oct. 18| Research with diving animals                                          | Dr. Michael Tift  
Research Associate  
Marine Biotechnology and Biomedicine                                                             |
| Oct. 25| Melting of Greenland’s Glaciers: The role of the ocean                | Dr. Fiamma Straneo  
Professor  
Physical Oceanography                                                                         |
| Nov. 1 | Adventures in Underwater Microscopy                                   | Dr. Jules Jaffe  
Research Oceanographer  
Marine Physical Laboratory                                                                        |
| Nov. 8 | Science Outreach and Communication                                   | Cari Paulenich  
Education Specialist  
Birch Aquarium                                                                                  |
| Nov. 15| (Title TBD: Ocean acidification and corals)                          | Dr. Andreas Andersson  
Associate Professor  
Geosciences Research Division                                                                   |
| Nov. 22| No lecture (Thanksgiving Holiday)                                     |                                                                                               |
| Nov. 29| (Title TBD: Experiences at COP23)                                     | Alan Seltzer  
Ph.D. Candidate  
Geosciences Research Division                                                                   |
| Dec. 6 | The Lion and the Mouse: How the Motions in the Ocean Impact our Planet| Dr. Jennifer MacKinnon  
Associate Professor  
Marine Physical Laboratory                                                                    |
