SIO 286: Sustainable Seafood: Science, Management, and Public Perception

Winter 2020

1:30-4:30pm Wednesdays
Location: Hubbs 4500 at Scripps and Pacific Room at SWFSC
Grade option: Letter grade

Instructor: Sarah Mesnick / sarah.mesnick@noaa.gov / 858-546-7148 / SWFSC 402
Office hours: Friday 2:00 – 4:00 pm or by appointment

With: Oriana Poindexter Oriana.poindexter@noaa.gov (858-334-2883)
Office hours: by appointment

We have designed Sustainable Seafood: Science, Management, and Public Perception to bridge gaps in our understanding of fish, fisheries, and seafood. We aim to expand and challenge your thinking about food systems, with examples drawn from various products harvested from the sea. We will cover a diverse array of topics and their relation to one another, including biology and ecology, fisheries management, business and value chains (both legal and illegal), food security, food justice, and communication.

Schedule

Week 1 – 1/8 Pacific Room
What is seafood sustainability? Course overview

Week 2 – 1/15 Hubbs 4500
San Diego Caught: Local fisheries, opportunities, and barriers

Week 3 – 1/22 Pacific Room
Introduction to fisheries management, stock assessment, and coastal pelagic species (CPS)

Week 4 – 1/29 Southwest Fisheries Science Center - Labs
Science behind stock assessment: At sea and in the lab with coastal pelagics (CPS)

Week 5 – 2/5 Hubbs 4500
Ecolabels, traceability and market strategies

Week 6 – 2/12 Pacific Room
Tunas: Biology and management of highly migratory species (HMS)

Week 7 – 2/19 Pacific Room
Transfer effects (swordfish)

Week 8 – 2/26 Hubbs 4500
California Salmonscape

Week 9 – 3/4 Hubbs 4500
Aquaculture: shellfish and seaweeds

Week 10 – 3/11 Hubbs 4500
Aquaculture: finfish. Course wrap up

Finals week 3/20 Hubbs 4500 (11:30-2:30pm)
Speed presentations; final projects due

Field trips (optional):
11 Jan – Local fisheries / San Diego Tuna Harbor docks and market. 8am. Lunch
TBD – tuna longline offload and processing / Tuna Harbor / Catalina Offshore Products
TBD – Abalone farm tour / Santa Barbara
TBD – Striped bass aquaculture / Todos Santos, Baja California
Goals

● Learn to think critically about seafood systems.
● Learn how to access the best available science on fisheries, stock status, bycatch, etc..
● Build foundational knowledge of fisheries management.
● Gain appreciation for sustainability from multiple perspectives.
● Gain exposure to local fisheries, seafood supply chain, and the people involved.
● Examine how information about seafood is acquired, communicated, and disseminated.
● Identify your role/s in the seafood system

Events (optional with varied opportunities to participate):
22 Jan – Sustainable Seafood Summit / San Francisco
27 Jan – Lunch and Learn / fish breakdown / Specialty Produce
31 Jan – Kitchens for Good Graduation 1/31/2020 at 11am
5 Feb – NMFS Deputies Meeting / seafood tacos / SWFSC
6 Feb - 2100 Kettner Fete and Feast / Little Italy
19 Feb – Ocean Sciences Town Hall
1-4 March – Pacific Fisheries Technologists Conference / Long Beach
15-17 March – Seafood Expo North America / Boston
15 April – Research Chefs Association Annual Conference / Hard Rock Hotel, San Diego
16-17 April – Patricia Majluf / CMBC seminar / Oceana / Peruvian anchoveta

Ongoing
San Diego Maritime museum tuna exhibit
Tuna Harbor Dockside Market (Saturdays)

Structure/Grading

Participation (40%)
● Lectures will be followed by class or panel discussions, participation will be based on:
  o Weekly class attendance and engagement in class discussion
  o Weekly readings (on Canvas; links and citations on syllabus) and discussion
  o Field trips and events (optional)

Class crowd-sourced projects (30%)
● Collect data, enter in shared folder, and complete three short (1-2 page) papers on:
  o San Diego seafood markets (15 pts)
  o San Diego Seafood menus (7.5 pts)
  o Ecolabels and seafood sourcing (7.5 pts)

Final project (30%)
● Completion of 2500 word (ca. 5 page) paper and Ignite/speed presentation (5 min) that considers a seafood product from “ocean to table” and that cites original fisheries data (assessment, bycatch, landings, etc). Both the paper and the presentation are due in class during finals week on 22 March 11:30-2:30pm.
● Topics:
  o NOAA FishWatch species
  o California Sea Grant species
  o Topic of your choice, e.g.,
    ▪ Abalone (Oriana)
    ▪ Salmon hatcheries (Sarah)
    ▪ Bycatch (Martin)

### 1/29 SWFSC
**Science behind stock assessment: CPS**
- SWFSC Life History lab exercises
- Group discussion

**Assignment**
- Conduct San Diego seafood market survey and enter data in class crowd source site

### 2/5 Hubbs 4500
**Ecolabels and traceability; market strategies for middle ground fisheries**
- Ecolabels
- Traceability
- Marketing
- Seafood sourcing
- Storied Seafood

**Guest lectures**
- Seafood reception

**Read**

**Visit**
- National Ocean Council Committee on IUU Fishing and Seafood Fraud [https://www.iuufishing.noaa.gov/Home.aspx](https://www.iuufishing.noaa.gov/Home.aspx)

**Assignment**
- Review the criteria of one company’s seafood sourcing; add to the class crowd source site; write short summary of what you found – what did you find to be present/lacking? be prepared to share in class

### 2/12 SWFSC
**Highly Migratory Species (HMS): Tuna**
- Diversity of tuna
- Ecological roles of tuna
- History of tuna fisheries in San Diego (yellowfin, bluefin)
- Current issues in tuna conservation and management
- Processing
- Culinary uses and approaches

**Read**
- Read SWFSC’s [bluefin tuna factsheet](https://www.pewtrusts.org/en/research-and-analysis/fact-sheets/2012/02/23/faq-what-is-a-regional-fishery-management-organization)
- Check out the [Dolphin Safe Tuna Tracking and Verification Program](https://www.npr.org/sections/thesalt/2015/06/11/412943456/why-is-this-fisherman-selling-threatened-bluefin-tuna-for-2-99-a-pound)

**In the news**

**Review**
- Visit NOAA Fisheries West Coast Region [Highly Migratory Species pages](https://www.pewtrusts.org/en/research-and-analysis/fact-sheets/2012/02/23/faq-what-is-a-regional-fishery-management-organization)
- Visit the website of the [Inter-American Tropical Tuna Commission, Western and Central Pacific Fisheries Commission](https://www.noaa.gov/regions/west-coast-region), or the [International Scientific Committee for Tuna (ISC)](https://www.noaa.gov/regions/west-coast-region)

**Assignment**
- Visit “seafood” or “sustainable seafood” restaurant (online or in person) and ask about their menu and sourcing; add data to class crowd source site; write short summary of diversity and sources of seafood
