- Two ADA-equipped unisex bathrooms with outdoor entrances

Outside Features

- Sweeping views of the Pacific Ocean, La Jolla Cove, and Scripps Pier
- Two large, wooden decks with electrical outlets
- Surrounding grassy areas for ceremonies
- Shade from tall cypress trees
- Seating space for up to 130

The Martin Johnson House is a historic oceanfront cottage nestled under lush cypress trees with breathtaking views of the Pacific coastline.

Built in 1916, the rustic cottage was one of the earliest additions to the Scripps Institution of Oceanography campus. Once used as a home for Scripps professors and their families, the refurbished cottage and grounds now offer a charming coastal setting ideal for social events ranging from business meetings to wedding receptions.
