

SIOB 291: Biology Graduate Research Presentations

Marine Microbial Biology Seminar

Winter 2021 | Thursdays 9:30 – 11:00 am | Jack Gilbert

Date	Presenter	Moderator
Jan 07	Intro & logistics	N/A
Jan 14	Neil Gottel - <i>Gilbert Lab</i>	Entesar Alrubaiaan
Jan 21	NO PRESENTATION	
Jan 28	Hans Singh - <i>Jensen Lab</i>	Kaitlin Creamer
Feb 04	Emily Kunselman - <i>Gilbert Lab</i>	Dulce Guillen
Feb 11	Mark Moosburner – <i>A Allen Lab</i>	Ariel Rabines
Feb 18	Luke Fisher - <i>Bartlett Lab</i>	Kelli Mullane
Feb 25	Ariel Rabines – <i>A Allen Lab</i>	Emily Kunselman
Mar 04	Kaitlin Creamer - <i>Jensen Lab</i>	Neil Gottel
Mar 11	Ivan Moreno - <i>Palenik Lab</i>	Luke Fisher

This seminar provides a lecture forum for Marine Microbial Biology designed for PhD and MS graduate students conducting research broadly in the area of marine microbiology. There will be one speaker and one moderator per week. The format of the seminar follows that of a

standard research talk of approximately 45 minutes that describes some aspect of the thesis research. Rather than give a research talk, students may elect to give a more formal lecture or tutorial in a subject area of relevance to their research (e.g. technique or analysis method). Speakers should provide the moderator an abstract of approximately 200 words on or before the Friday prior to their talk and the moderator will distribute this to the students enrolled in the course and Megan Prevolos (mpreovolos@ucsd.edu) no later than the Tuesday before the presentation. Speakers should provide the moderator with a CV and other relevant information needed for an effective introduction. Moderators will introduce the speaker and oversee a question and answer period immediately following the talk. Following the Q&A session, which includes faculty, post-docs, and others interested in the field, the students enrolled in the course will meet privately with the speaker for the remainder of the class period. The goal of this more informal session is for students to provide feedback to the speaker on the quality of the talk and to dive more deeply into topics that may not be familiar to all students. This seminar is designed to engage the marine microbiology community at SIO so come share your enthusiasm and hear the amazing science being conducted by your friends and colleagues!
